2. To provide that, where,

   (a) the council of the Corporation has the authority to direct or require that any matter or thing be done and that in default of its being done by the person directed or required to do it, such matter or thing shall be done at his expense, the Corporation shall have a lien for any amount expended by or on behalf of the Corporation and for an administrative fee, not to exceed ten per cent of such amount, together with interest thereon at a rate to be fixed by the council of the Corporation upon the real property in respect of which the amount was expended, and such total amount shall be deemed to be municipal real property taxes and shall be added to the collector's roll of taxes to be collected and shall be subject to the same penalty and interest charges as real property taxes and shall be collected in the same manner and with the same remedies as real property taxes;

   (b) the council of the Corporation has the authority to provide for the making of loans to the registered owners or assessed owners of land to pay for the cost of repairs, the clearing, grading and levelling of the lands or the cost of the repair, rehabilitation, improvement or conversion of real property used or to be used for residential purposes, on such terms and conditions as the council may prescribe, the Corporation shall have a lien for any amount loaned by or on behalf of the Corporation and for an administrative fee, not to exceed ten per cent of such amount, together with interest thereon at a rate to be fixed by the council of the Corporation upon the real property in respect of which the amount was loaned, and if default is made with respect to any of the payments, as prescribed, the whole of the balance of the loan, together with accrued interest thereon at the time of default, becomes due and payable forthwith, and the amount of such balance, including interest, shall be deemed to be municipal real property taxes and shall be added to the collector's roll of taxes, to be collected, and shall be subject to the same penalty and interest charges as real property taxes and shall be collected in the same manner and with the same remedies as real property taxes.

The City pursuant to the agreement will maintain lighting on the street now known as Queen's Park Crescent in accordance with the City's standard for street lighting on public highways in the area. The proposed agreement also deals with the ownership and maintenance of certain statutes situate on the lands the leasehold interest in which is to be surrendered by the City. The proposed agreement further provides that the University will release and discharge the City from its obligation to endow and maintain two Chairs in the University effective October 1, 1973.

3. ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-24

Having received a request from the Minister of Natural Resources that an undertaking, namely:

> The disposition of approximately 245 acres of land being parts of lots 29 and 30, Concession V, West of Hurontario Street, Township of Chinguacousy and known locally as the "Cheltenham Brick Works", for the purpose of returning the property to the extracting, processing and manufacturing of shale products;

be exempt from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by the undue expense required to prepare an Environmental Assessment for an undertaking that will have no significant adverse effect on the environment, and which is needed to fully utilize the economic, social and natural capabilities of the site.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act:

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The property will be reverting to its original use, which was the quarrying, processing and manufacturing on site of shale products.

2. Proposals, which must address the strict control of development activities, will be considered from interested parties. The criteria to be addressed are listed in the proposal request and are such as will ensure the orderly development, operation and abandonment of the project in an acceptable environmental manner.

3. Any proposal, being considered for acceptance by the Ministry of Natural Resources must meet conditions outlined below.

This exemption order is subject to the following terms and conditions:

1. That the accepted proposal will have incorporated therein procedures to preserve the existing heritage resource on the property, the old brick factory. The procedures shall be mutually acceptable to the applicant and the Ministry of Culture and Recreation. A copy of such procedures will be filed by the Ministry of Natural Resources with the Environmental Approvals Branch for inclusion in the Public Record, prior to the proposal being accepted, and such procedures will be followed.

2. Prior to completion of negotiations for the sale of the property, the applicant will:

   (*a*) present the proposal at public meetings for discussion;

   (*b*) present the proposal to the Council of the Town of Caledon for consideration and approval;

   (*c*) present the proposal to the Credit Valley Conservation Authority for discussion;

   (*d*) request and receive a Development Permit from the Niagara Escarpment Commission;

   (*e*) prepare and submit a site plan according to the "Guidelines for the Preparation and Assessment of Pit and Quarry Site Plans Submitted under *The Pits and Quarries Control Act, 1971*"; and

   (*f*) request and receive a licence under *The Pits and Quarries Control Act, 1971*; and

3. A copy of the accepted proposal shall be made available to the public at the MNR District Office in Maple, Ontario, and a copy sent to the Environmental Approvals Branch of the Ministry of the Environment to be kept with records of environmental assessment and made available to the public in the same way as such records.

This order comes into force and has effect on and after the date upon which it is approved by the Lieutenant Governor in Council. O. Reg. 337/80.

Exemption—Ministry of Transportation and Communications—MTC-28.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS —MTC-28

Having received a request from the Minister of Transportation and Communications that an undertaking namely:

> The activity of carrying out planning, design, provision and construction under that portion of the Ministry of Transportation and Communications' Capital Construction Program of Provincial road construction consisting of those named works listed in the attached schedule.

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of projects for which Class environmental assessments have been formally submitted but not yet approved; and

2. The public will be interfered with by delay in the carrying out of highway projects; and

Having been advised of an existing environmental process implemented by the Ministry of Transportation and Communications with respect to projects commenced before the Act came into force; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. In that Class Environmental Assessments to cover the project listed here have been formally submitted to the Minister of the Environment and are currently under review, the interference with the Provincial road construction program of the Ministry of Transportation and Communications which would be caused by the application of the Act would be undue.

2. The protection, conservation and wise management of the environment will be sufficiently provided for in the interval prior to the completion of the Class Environmental Assessment by the environmental process already followed by the Ministry of Transportation and Communications as part of its policy.

This exemption is subject to the following permits and conditions:

1. Projects on the attached schedule will be planned in accordance with the provisions outlined in the Draft Class Environmental Assessments currently under review under the Act.

2. For all projects on the attached schedule, the Ministry of Transportation and Communications shall prepare and submit an Environmental Report.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 339/80.
Exemption—Ministry of Government Services—MGS-41.
Made—March 5th, 1980.
Approved—March 5th, 1980.
Filed—May 2nd, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-41

Having received a request from the Minister of Government Services that an undertaking, namely:

The construction program associated with the development of a new and extended irrigation

system for the purpose of increasing the capacity of the Thunder Bay Tree Nursery and the increase in capacity;

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with and damaged by the undue delay required to prepare an Environmental Assessment for an undertaking that will have no significant adverse effect on the environment, and which is needed by the Ministries of Northern Affairs and Natural Resources to upgrade the existing irrigation system and further extend irrigation to another 60 acres for the purposes of increasing nursery production to satisfy current and future program requirements; and

2. The general public and the forest industry will be damaged and interfered with because the current and future demand for nursery stock cannot be supplied by the present inadequate facilities.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. The proposed undertaking would replace and expand upon existing facilities which are inadequate in terms of current program requirements.

2. Nursery operations of this nature have been carried out in this location for almost 40 years and are compatible with the surrounding environment.

3. The water resources of the surrounding environment are capable of supplying the demands which will be imposed by the proposed undertaking.

4. The Ministry of Culture and Recreation has been sent a copy of the plans for the proposed undertaking. The regional archaeologist will be notified prior to commencement of construction. These procedures will ensure that the Ministry of Culture and Recreation has every opportunity to protect any heritage resources that might exist at the site.

5. The proposed undertaking will not have any significant adverse effects on the environment.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction be awarded no later than December 31st, 1980. O. Reg. 339/80.

Exemption—Ministry of Natural Resources—MNR-25.
Made—April 2nd, 1980.
Approved—April 2nd, 1980.
Filed—May 2nd, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-25

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The sewage treatment facility at the Goat River silvicultural camp in the Township of Minnipuka; a sewage lagoon of approximately 1,225 square metres of surface area;

be exempt from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with by the undue delay required to prepare an environmental assessment for the undertaking which, for the reasons listed below, is not expected to result in adverse environmental effects.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The location of the proposed lagoon is isolated and there are no private landowners within the Township.

2. The facility is only to be used to receive sewage for approximately six weeks per year.

3. The application by the Ministry of Natural Resources for a Certificate of Approval under Section 42 of *The Ontario Water Resources Act* has been reviewed by technical staff of the Ministry of the Environment and I am advised that the facility is technically adequate to allow a Certificate of Approval to be granted, with conditions.

4. The Ministry of Natural Resources will submit samples of lagoon contents to the Ministry of the Environment for analysis purposes prior to discharge to determine if additional treatment is required.

5. Discharge will be timed for high water levels during spring freshet at the direction of the Ministry of the Environment, to avoid adverse effects on fish spawning in the receiving watercourse, the Goat River.

6. Treated effluent loadings, as determined by the Ministry of the Environment district staff, appear to be well within the water quality objectives outlined in the document entitled, "Water Management—Goals, Policies, Objectives and Implementation Procedures of the Ministry of the Environment". Expected increases in BOD_5, suspended solids and phosphorus levels in the receiving watercourse should not be measureable and, therefore, are not expected to have an adverse environmental effect.

7. Although condition 2 of MNR-13 regarding sewage systems indicates that lagoons and direct discharge systems will be built in accordance with *The Environmental Assessment Act*, on reviewing the information provided to me, I am of the opinion that this sewage treatment facility, for the reasons listed above, will not result in adverse environmental effects.

This exemption order is subject to the following terms and conditions:

1. That before constructing the undertaking, the approval under Section 42 of *The Ontario Water Resources Act* which has been applied for be obtained and that construction and operation of the undertaking only be proceeded with in accordance with any provisions of such approval as though such Act bound the Crown.

2. Samples of the lagoon contents shall be submitted to the Ministry of the Environment for analysis prior to discharge and chemical treatment of the discharge shall be undertaken if necessary at the direction of the Ministry of the Environment.

3. Discharge will only take place at times when the Ministry of the Environment has advised the Ministry of Natural Resources that streamflow is of sufficient volume that BOD_5, suspended solids and phosphorus levels in the receiving watercourse will not be adversely affected.

4. This exemption shall no longer apply if the sewage lagoon ceases to be used on only a seasonal basis. O. Reg. 340/80.

Exemption—Ministry of Natural Resources—MNR-18/2.
Made—April 2nd, 1980.
Approved—April 2nd, 1980.
Filed—May 2nd, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-18/2

Having received or being about to receive class environmental assessments with respect to some of the activities within the undertaking exempted by Order MNR-18, published in THE ONTARIO GAZETTE on October 6th, 1979, including:

The activities of constructing or implementing:

(1) dredging;

(2) shoreline and bank stabilization;

(3) ponds;

And whereas Condition 2 of the above Order required the Ministry of Natural Resources to formally submit class environmental assessments covering the activities exempted by it to the Minister of the Environment for acceptance by January 30th, 1980; and

Whereas the class environmental assessments covering the above activities were not submitted by then; and

Having been advised that the class environmental assessments for the activities which make up the undertaking were not submitted to the Minister of the Environment for acceptance by January 30th, 1980 because they needed to first receive internal approval within the Ministry of Natural Resources and be printed; and

Having been advised that if the projects within the undertaking are subject to the application of the Act while the class environmental assessments are being reviewed, the following injury, damage or interference with the persons indicated will occur:

1. The Crown and the public will be interfered with by the delay in planning and implementing those projects which are or will be scheduled to proceed within the period of the exemption.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, that the undertaking is further exempt from the application of the Act for the following reasons:

1. This order does not affect the expiry date under Order MNR-18 of the exemption for any activities exempted thereunder but only extends the date required for submission of the environmental assessments referred to above.

2. The Ministry of Natural Resources will continue to carry out individual environmental assessment procedures for any project within the undertaking which is liable to have such significant effects that an individual environmental assessment would be carried out as proposed in the class environmental assessments as submitted and not yet approved.

3. The Ministry of Natural Resources will apply the appropriate provisions of the class environmental assessments as submitted and not yet approved to some of the projects within the proposed undertaking to be implemented this construction season to gain experience so the class environmental assessments may be readily applied to the undertaking after they are approved, and the Ministry of Natural Resources will continue to advise the Environmental Assessment Section of the Ministry of the Environment of the progress being made from time to time in applying such provisions.

This exemption is subject to the following terms and conditions:

1. The exemption expiry date remains at September 30th, 1980 as prescribed by Order MNR-18, by which time approvals of the undertakings are expected to be in place. This exemption shall not apply to any projects within the undertaking for which an approval to proceed is received.

2. Where the carrying out of a project requires that some activity, for which an environmental assessment has been done and an approval to proceed received, be conducted, that project shall be carried out in accordance with the environmental assessment and approval to proceed.

3. A copy of any plan or project description with respect to a project within the undertaking shall, before the implementation of the project commences, be made available to the public at a local office of the Ministry of Natural Resources and a copy shall also be sent to the Environmental Approvals Branch of the Ministry of the Environment to be kept with the records of environmental assessments and made available to the public in the same way as such records. EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-19/2

Having received the revised class environmental assessments with respect to projects within the undertaking exempted by Order MNR-19 published in THE ONTARIO GAZETTE on October 6th, 1979, and whereas the exemption for the undertaking, namely:

The activity of constructing or implementing:

(1) dams, dykes;

(2) landfill sites, dumps and transfer stations;

(3) canoe routes;

(4) the reclamation of lakes by use of chemicals, mechanical devices or other methods;

under the above Order will expire March 31st, 1980, and;

Having been advised that if the projects within the undertaking are subject to the application of the Act while the class environmental assessments are being reviewed, the following injury, damage or interference with the persons indicated will occur:

1. The Crown and the public will be interfered with by the delay in implementing the plans and associated projects.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The processing of the class environmental assessments for the projects within the undertaking has been delayed by the suspension of their reviews at the request of the proponent. The class environmental assessments for (1), (2) and (3) were subsequently withdrawn by the proponent in order to resolve deficiencies in the environmental assessments that were identified by the Government reviewers. The environmental assessments have recently been resubmitted for approval. This exemption extends the expiry date of the MNR-19 exemption in order to allow these environmental assessments to be reviewed and the necessary decisions taken under the Act.

2. Satisfactory progress has been made towards the approval of the projects which are part of the undertaking for which class environmental assessments have been re-submitted and not yet approved.

3. The Ministry of Natural Resources will carry out individual environmental assessment procedures for those projects within the undertaking which are liable to have such significant effects that an individual environmental assessment would be carried out as proposed in the class environmental assessments as submitted and not yet approved.

4. I have been advised by the Minister of Natural Resources that he will continue to apply the provisions of the class environmental assessments as submitted and not yet approved to some of the projects within the proposed undertaking to gain experience so that the class environmental assessments may be readily applied to the undertaking after they are approved, and that the Ministry of Natural Resources will continue to advise the Environmental Assessment Section of the Ministry of the Environment of the progress being made from time to time in applying such provisions.

This exemption is subject to the following terms and conditions:

1. Where the carrying out of a project requires that some activity for which an environmental assessment has been done and an approval to proceed received, be conducted, that project shall be carried out in accordance with the environmental assessment and approval to proceed.

2. This exemption shall terminate on December 31st, 1980 and shall not apply to any project within the undertaking for which an approval to proceed has been received under the Act. O. Reg. 342/80.

1. The public will be interfered with by the delay of facilities which are required to maintain an adequate power supply.

2. Ontario Hydro will be interfered with and damaged by the undue delay of projects that are often urgent and primarily of a minor nature.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. Ontario Hydro will carry out individual environmental assessment procedures for projects within the undertaking which are liable to have such significant effects that an individual environmental assessment would be carried out as proposed in the program environmental assessment being reviewed.

2. As required by Condition 1 of exemption order OH-19, Ontario Hydro has carried out the planning, designing, construction, operating and maintaining of projects within this undertaking in accordance with the process and procedures described in the program environmental assessment that is currently under review.

3. The approval of the program environmental assessment has been delayed by the suspension of its review, in order to resolve deficiencies in the environmental assessment that were identified by the Government reviewers in particular, regarding the newly revised Construction and Site Restoration Guidelines to which reference is made in the environmental assessment and which will be an integral part of the environmental assessment.

4. Satisfactory progress has been made towards the finalizing of acceptable Construction and Site Restoration Guidelines so that the program environmental assessment may receive approval, but an approval will not be able to be given by April 1st, 1980.

5. The betterment of people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment is being sufficiently fulfilled by the processing of the program environmental assessment.

6. It is therefore in the public interest to extend the exemption of the undertaking.

This exemption is subject to the following terms and conditions:

1. That the program of planning, designing, construction, operating and maintaining the projects within this undertaking that are in these stages on or after April 1st, 1980 shall be carried out in accordance with the process and procedures described in the program environmental assessment that is currently under review.

2. Where work which would otherwise be part of the undertaking exempted hereunder is being carried out and an approval to proceed under the Act has been obtained for an undertaking which includes such work, the work shall not be part of the undertaking exempted hereunder but shall be carried out in accordance with such approval.

3. This exemption shall terminate on the earlier of the date on which approval to proceed with the undertaking is received under the Act or December 31st, 1980. O. Reg. 343/80.

The City pursuant to the agreement will maintain lighting on the street now known as Queen's Park Crescent in accordance with the City's standard for street lighting on public highways in the area. The proposed agreement also deals with the ownership and maintenance of certain statutes situate on the lands the leasehold interest in which is to be surrendered by the City. The proposed agreement further provides that the University will release and discharge the City from its obligation to endow and maintain two Chairs in the University effective October 1, 1973.

3. The proposed legislation also provides that the City may with certain exceptions delegate to a committee of council or appointed official any of the council's power or authority under the proposed section and provides for certain offences. It may be required, as a condition of approval of the energy conservation statement, that the owner of the land provide and maintain such facilities, matters and construction and design details as shall conserve the use of energy and enter into one or more agreements with the City dealing therewith, which agreements may be registered against the lands and enforced against the owner and subsequent owners. Form 1

The Crop Insurance Act (Ontario)

CONTRACT OF INSURANCE

Between:

THE CROP INSURANCE COMMISSION OF ONTARIO, hereinafter referred to as "THE COMMISSION",

OF THE FIRST PART:

—and—

.....

of the ..... of .....

in the County (or as the case may be) of

....., hereinafter referred to as "THE INSURED PERSON",

OF THE SECOND PART.

WHEREAS the insured person has applied for crop insurance on one or more crops under The Crop Insurance Plan for Cabbage and Carrots, hereinafter referred to as "the plan";

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)*, and the regulations made thereunder, where in a crop year the insured person suffers a loss resulting from one or more of the perils designated in the plan, the Commission, subject to the terms and conditions hereinafter set forth, agrees to indemnify the insured person in respect of such loss.

CAUSES OF LOSS NOT INSURED AGAINST

1. This contract does not insure against and no indemnity shall be paid in respect of a loss resulting from,

(*a*) the negligence, misconduct or poor farming practices of the insured person or his agents or employees;

(*b*) a shortage of labour or machinery;

(*c*) insect infestation or plant disease unless recommended spray programs were followed; or

(*d*) a peril other than the perils designated in the plan.

EXTENT OF INSURANCE

2.—(1) The insured person shall offer for insurance all acreage planted in the crop year to cabbage and carrots on the farms operated by him in Ontario, whether grown under contract or not and, subject to

subparagraph 2, this contract applies to all such acreage.

(2) This contract does not apply to, and no indemnity is payable in respect of, acreage planted to an insured crop,

(*a*) that was not adequately prepared for cropping purposes;

(*b*) that, in the opinion of the Commission, is not insurable;

(*c*) for which a contract between the insured person and the processor is not in effect; or

(*d*) on which the insured crop is a volunteer crop.

3.—(1) Where the acreage planted by the insured person in the crop year is not the same as that stated in the application for insurance, the insured person shall, not later than the 15th day of July, notify the Commission in writing of the actual acreage planted.

(2) Where the actual planted acreage of an insured crop is less than that stated in the application for insurance, the maximum amount of indemnity shall be reduced proportionately.

(3) Where the actual planted acreage of an insured crop is more than that stated in the application for insurance, the maximum amount of indemnity and the premium payable shall not be increased but the production from the total planted acreage shall be included in establishing the income of the insured person unless the processor increases the contract acreage accordingly.

HARVESTING OF PLANTED ACREAGE

4.—(1) All acreage planted to an insured crop in the crop year shall be harvested for processing unless the Commission, upon application therefor in writing, consents in writing to,

(*a*) the use of the planted acreage or any part thereof for another purpose; or

(*b*) the abandonment or destruction of the insured crop or any part thereof.

(2) The final date for the harvesting referred to in subparagraph 1 is noon on the 1st day of November or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any planted acreage is not completed on the date prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 2, no indemnity shall be paid in respect of unharvested acreage.

STAGE 1

5.—(1) Stage 1 comprises the period from the date on which the planting of the acreage is completed to the 30th day of June.

(2) Where any part of the insured crop is lost or damaged in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(*a*) the replanting of the damaged acreage; or

(*b*) the abandonment or destruction of the insured crop on such damaged acreage and in such case the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where the damaged acreage is replanted to the insured crop in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as,

(*a*) 50 per cent of the coverage applicable to the damaged acreage; or

(*b*) the difference between the coverage and the potential value of production for the damaged acreage,

whichever is the lesser.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

STAGE 2

6.—(1) Stage 2 commences on the 1st day of July and for any part of the planted acreage ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where,

(*a*) damaged acreage is used for any other purpose or the insured crop thereon is abandoned

or destroyed in accordance with subparagraph 2; or

(*b*) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the amount by which the coverage for the damaged or unharvested acreage, as the case may be, exceeds the potential value of production determined therefor.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual value of production of the acreage harvested determined in the manner prescribed by section 10 of the plan is less than the coverage for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the difference between the coverage and the actual value of production.

EVALUATION OF LOSS

7. The amount of loss that shall be taken into account in the final adjustment of loss is the amount by which the total coverage prescribed by section 9 of the plan exceeds the sum of,

(*a*) the total value of production of the insured crop or crops for the crop year determined in the manner prescribed by section 10 of the plan as evidenced by the processor's statement of production;

(*b*) the value as determined by the Commission of the potential production of acreage unharvested for reasons other than the insured perils; and

(*c*) any loss sustained by reason of a peril other than the perils designated in the plan.

MISREPRESENTATION, VIOLATION OF CONDITIONS OR FRAUD

8. Where the insured person,

(*a*) in the application for insurance,

(i) gives false particulars of an insured crop to the prejudice of the Comission; or

(ii) knowingly misrepresents or fails to disclose any fact required to be stated therein;

(*b*) contravenes a term or condition of the contract of insurance;

(*c*) commits a fraud in respect of an insured crop; or

(*d*) wilfully makes a false statement in respect of a claim under the contract of insurance,

a claim by the insured person is invalid and his right to recover indemnity is forfeited.

WAIVER OR ALTERATION

9. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

10. Notwithstanding that a person other than the insured person holds an interest of any kind in an insured crop, for the purposes of this contract,

(*a*) the interest of the insured person in an insured crop is deemed to be the full value of the crop; and

(*b*) except as provided in paragraph 11, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

11. The insured person may assign all or part of his right to indemnity under this contract in respect of an insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

(*a*) the assignment is made on a form approved by the Commission; and

(*b*) the Commission consents thereto in writing.

12.—(1) Where loss or damage to an insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within three days of such time.

(2) Where loss or damage to an insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear, to the insured person at any time after planting and before the completion of harvesting of the insured crop that the production of the insured crop may thereby be reduced, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(3) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of an insured crop,

(*a*) the actual value of production of the insured crop determined in the manner prescribed by section 10 of the plan is less than the total insured coverage; and

(*b*) the loss resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing forthwith.

ABANDONMENT, DESTRUCTION OR ALTERNATE USE

13.—(1) Acreage planted to an insured crop shall not be put to another use and the insured crop shall not be abandoned or destroyed until the Commission has appraised the potential production of the acreage.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage for processing.

ADJUSTMENT OF LOSS

14.—(1) The indemnity payable for loss or damage to an insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of an insured crop to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss in respect of an insured crop unless the insured person establishes,

(*a*) the total value of production of the insured crop for the crop year; and

(*b*) that the loss in income or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

PROOF OF LOSS

15.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

(*a*) the completion of harvesting of the last of the insured crops; or

(*b*) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

(*a*) in the case of the absence or inability of the insured person, by his agent; or

(*b*) in the case of the absence or inability of the insured person or on his failure or refusal to do so, by an assignee under an assignment made in accordance with paragraph 11.

(4) Where required by the Commission, the information given in a proof of loss shall be verified by statutory declaration.

ARBITRATION

16. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment of loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMNITY

17.—(1) No indemnity under this contract becomes due and payable until,

(*a*) the end of the crop year; and

(*b*) the premium has been paid in full.

(2) Where the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

(3) Nothing in this paragraph prevents the Commission from paying indemnity under this contract at an earlier date.

SUBROGATION

18. Where the Commission has paid a claim under this contract, the Commission is subrogated to the extent thereof to all rights of recovery of the insured person against any person and may bring action in the name of the insured person to enforce those rights.

RIGHT OF ENTRY

19. The Commission has a right of entry to the premises of the insured person that may be enforced by agents of the Commission at any reasonable time or times for any purpose related to the contract of insurance.

NOTICE

20.—(1) Any written notice to the Commission shall be given by delivery thereof or by sending it by mail to the Commission.

(2) Written notice to the insured person shall be given by delivery thereof or by sending it by mail addressed to him at his last post office address on file with the Commission.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 2, no indemnity shall be paid in respect of unharvested acreage.

STAGE 1

5.—(1) Stage 1 comprises the period from the date on which the planting of the acreage is completed to the 30th day of June.

(2) Where any part of the insured crop is lost or damaged in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(*a*) the replanting of the damaged acreage; or

(*b*) the abandonment or destruction of the insured crop on such damaged acreage and in such case the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where the damaged acreage is replanted to the insured crop in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as,

(*a*) 50 per cent of the coverage applicable to the damaged acreage; or

(*b*) the difference between the coverage and the potential value of production for the damaged acreage,

whichever is the lesser.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

STAGE 2

6.—(1) Stage 2 commences on the 1st day of July and for any part of the planted acreage ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where,

(*a*) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or

(*b*) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the amount by which the coverage for the damaged or unharvested acreage, as the case may be, exceeds the potential value of production determined therefor.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual value of production of the acreage harvested determined in the manner prescribed by section 10 of the plan is less than the coverage for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the difference between the coverage and the actual value of production.

EVALUATION OF LOSS

7. The amount of loss that shall be taken into account in the final adjustment of loss is the amount by which the total coverage prescribed by section 9 of the plan exceeds the sum of,

(*a*) the total value of production of the insured crop for the crop year determined in the manner prescribed by section 10 of the plan as evidenced by the processor's statement of production;

(*b*) the value as determined by the Commission of the potential production of acreage unharvested for reasons other than the insured perils; and

(*c*) any loss sustained by reason of a peril other than the perils designated in the plan.

MISREPRESENTATION, VIOLATION OF CONDITIONS OR FRAUD

8. Where the insured person,

(*a*) in the application for insurance,

(i) gives false particulars of the insured crop to the prejudice of the Commission, or

(ii) knowingly misrepresents or fails to disclose any fact required to be stated therein;

(*b*) contravenes a term or condition of the contract of insurance;

(*c*) commits a fraud in respect of the insured crop; or

(*d*) wilfully makes a false statement in respect of a claim under the contract of insurance,

a claim by the insured person is invalid and his right to recover indemnity is forfeited.

WAIVER OR ALTERATION

9. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

10. Notwithstanding that a person other than the insured person holds an interest of any kind in the insured crop, for the purposes of this contract,

(*a*) the interest of the insured person in the insured crop is deemed to be the full value of the crop; and

(*b*) except as provided in paragraph 11, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

11. The insured person may assign all or part of his right to indemnity under this contract in respect of the insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

(*a*) the assignment is made on a form approved by the Commission; and

(*b*) the Commission consents thereto in writing.

12.—(1) Where loss or damage to the insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within three days of such time.

(2) Where loss or damage to the insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear to the insured person at any time after planting and before the completion of harvesting of the insured crop that the production of the insured may thereby be reduced, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(3) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of the insured crop,

(*a*) the actual value of production of the insured crop determined in the manner prescribed by section 10 of the plan is less than the total insured coverage; and

(*b*) the loss resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing forthwith.

ABANDONMENT, DESTRUCTION OR ALTERNATE USE

13.—(1) Acreage planted to the insured crop shall not be put to another use and the insured crop shall not be abandoned or destroyed until the Commission has appraised the potential production of the acreage.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage for processing.

ADJUSTMENT OF LOSS

14.—(1) The indemnity payable for loss or damage to an insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of the insured crop to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss in respect of the insured crop unless the insured person establishes,

(*a*) the total value of the production of the insured crop for the crop year; and

(*b*) that the loss in income or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, the indemnity payable by the Commission under this contract shall be reduced accordingly.

PROOF OF LOSS

15.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

(*a*) the completion of harvesting of the insured crop; or

(*b*) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

(*a*) in the case of the absence or inability of the insured person, by his agent; or

(*b*) in the case of the absence or inability of the insured person or on his failure or refusal to do so, by an assignee under an assignment made in accordance with paragraph 11.

(4) Where required by the Commission, the information given in a proof of loss shall be verified by statutory declaration.

ARBITRATION

16. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment of a loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMITY

17.—(1) No indemnity under this contract becomes due and payable until,

(*a*) the end of the crop year; and

(*b*) the premium has been paid in full.

(2) Where the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

(3) Nothing in this paragraph prevents the Commission from paying indemnity under this contract at an earlier date.

SUBROGATION

18. Where the Commission has paid a claim under this contract, the Commission is subrogated to the extent thereof to all rights of recovery of the insured person against any person and may bring action in the name of the insured person to enforce those rights.

RIGHT OF ENTRY

19. The Commission has a right of entry to the premises of the insured person that may be exercised by agents of the Commission at any reasonable time or times for any purpose related to the contract of insurance.

NOTICE

20.—(1) Any written notice to the Commission shall be given by delivery thereof or by sending it by mail to the Commission.

(2) Written notice to the insured person shall be given by delivery therof or by sending it by mail addressed to him at his last post office address on file with the Commission.

1. Section 10 of the Schedule to Ontario Regulation 678/76 is revoked and the following substituted therefor:

10. The maximum amount for which the Commission is liable for a loss under a contract of insurance shall be the amount obtained by multiplying 80 per cent of the allotted poundage by the contract price per pound.

2. Clauses *a* and *b* of subsection 1 of section 11 of the said Schedule, as remade by section 1 of Ontario Regulation 485/78, are revoked and the following substituted therefor:

3.—(1) Subparagraph 4 of paragraph 5 of Form 1 of the said Regulation is revoked and the following substituted therefor:

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 40 per cent of the allotted poundage applicable to the damaged acreage by 45 per cent of the contract price per pound.

(2) Subparagraphs 3 and 5 of paragraph 6 of the said Form 1 are revoked and the following substituted therefor:

(3) Where the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 80 per cent of the allotted poundage applicable to the damaged acreage less any potential production determined under subparagraph 2 by 45 per cent of the contract price per pound.

. . . . . .

(5) Where, upon completion of harvesting,

(*a*) one-half of the total gross income from the harvested acreage; or

(*b*) the actual production from the harvested acreage multiplied by 30 per cent of the contract price per pound,

11.—(1) The total indemnity payable in the final adjustment of loss shall be the sum of all loss calculations but where,

(*a*) the actual production of any harvested acreage; or

Treasurer's Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

(*b*) any action of replevin where the value of property distrained, taken or detained does not exceed $3,000; and

(*c*) any action or matter authorized by or under any Act to be heard in the small claims court.

54*a*.—(1) In this section, "prime rate" means the lowest rate of interest quoted by chartered banks to the most credit-worthy borrowers for prime business loans, as determined and published by the Bank of Canada.

(2) For the purposes of establishing the prime rate, the periodic publication entitled the Bank of Canada Review purporting to be published by the Bank of Canada is admissible in evidence as conclusive proof of the prime rate as set out therein, without further proof of the authenticity of the publication.

(3) Subject to subsection 6, a person who is entitled to a judgment for the payment of money is entitled to claim and have included in the judgment an award of interest thereon,

(*a*) at the prime rate existing for the month preceding the month on which the action was commenced; and

(*b*) calculated,

(i) where the judgment is given upon a liquidated claim, from the date the cause of action arose to the date of the judgment, or

(ii) where the judgment is given upon an unliquidated claim, from the date the person entitled gave notice in writing of his claim to the person liable therefor to the date of the judgment.

(4) Where the judgment includes an amount for special damages, the interest calculated under subsection 3 shall be calculated on the balance of special damages incurred as totalled at the end of each six month period following the notice in writing referred to in subclause ii of clause *b* of subsection 3 and at the date of the judgment.

(5) Interest under this section shall not be awarded,

(*a*) on exemplary or punitive damages;

56. Upon a contract for the payment of a sum certain in labour or in any kind of goods or commodities or in any other manner than in money, the judge may give judgment for the amount in money as if the contract had been so expressed, if the goods and commodities have not been delivered or the labour or other thing performed in accordance with the contract.

57.—(1) The court in actions otherwise within its jurisdiction has power to grant relief, redress or remedy, or combination of remedies, either absolute or conditional, including the power to relieve against penalties and forfeitures, in as full and ample a manner as might be done in the like case by the Supreme Court.

(2) Nothing in this section confers jurisdiction to grant an injunction.

. . . . . .

59. A cause of action shall not be divided into two or more actions for the purpose of bringing it within the jurisdiction of the court.

60. A judgment in an action brought for the balance of an account, or for a part of a claim, where the residue is abandoned to bring the claim within the jurisdiction of the court, is a full discharge of all demands in respect of the account for the balance of which such action was brought or for the whole claim, as the case may be.

61.—(1) Where it appears at any stage of an action otherwise of the proper competence of the court that the court has not cognizance thereof on account of the title to land or a corporeal or incorporeal hereditament, or a toll, custom or franchise being in question, or the validity of a devise, bequest or limitation under a will or settlement being disputed, or the amount involved being in excess of the jurisdiction of the court, the action shall not on that account be dismissed, but a judge of the Supreme Court, or the judge of the court in which the action is pending, may order the action to be transferred to the Supreme Court or to a county court where the county court would have jurisdiction, upon such terms as to the payment of costs or otherwise as he thinks fit, and thereafter the action shall proceed in the Supreme Court or the county court as if originally commenced therein and as if the defendant had entered an appearance, but the judge may give such directions as to procedure as he considers proper.

(2) Where the order is made by a judge of the court, an appeal lies therefrom to a judge of the Supreme Court in chambers who may rescind the order or vary the terms thereof.

. . . . . .

63.—(1) Where a counterclaim is disputed and involves matters beyond the jurisdiction of the court, the judge may try the claim and may, if he sees fit, stay the issue of execution upon the judgment until the counterclaim has been disposed of, upon such terms as to security and otherwise as he sees fit to impose.

(2) If the counterclaim or any part thereof is admitted, the judge may direct the amount admitted to be set off *pro tanto* without prejudice to any proceedings to recover the balance.

64.—(1) An action in the court shall be entered and tried,

(3) In any case under clause *c* of subsection 1 or subsection 2, a Claim may be served by a bailiff of the court out of which it issues, and upon judgment being recovered execution against the goods and chattels of the debtor and all other process and proceedings to enforce payment of the judgment may be issued to the bailiff of such court and be executed and enforced by him in the county in which the debtor resides as well as in the county in which the judgment was recovered.

65. If a person desires to bring an action in the court of a division other than as in section 64 mentioned, the judge may by order authorize an action to be entered and tried in the court of any division in his county adjacent to the division in which the defendant or one of the defendants resides, whether such defendant resides in the county of the judge granting the order or in an adjoining county.

66. No proviso, condition, stipulation, agreement or statement that provides for the place of trial of an action, matter or proceeding is of any force or effect where the defendant, within the time limited for disputing the plaintiff's claim or within such further time as the judge allows, files with the clerk of the court in which the action was commenced a notice disputing the jurisdiction of the court and an affidavit of the defendant or his agent stating that in his belief there is a good defence to the action on the merits, the division wherein the cause of action arose, or partly arose, and the division where the defendant resides.

. . . . .

68. Where the defendant is a corporation not having its head office in Ontario and the cause of action arose partly in one division and partly in another, the plaintiff may bring his action in either division.

. . . . .

70.—(1) If it appears that an action should have been entered in some other court of the same or some other county, it shall not fail for want of jurisdiction, but, on such terms as the judge orders, all the papers and proceedings in the action may be transferred to any court having jurisdiction in the premises, and shall become proceedings thereof as if the action had been entered therein, and shall be continued as if it had originally been entered in the last-mentioned court.

(2) The clerk of the court to which the proceedings have been transferred shall place the action on the list for trial at the next sittings of his court that commence six clear days or more after he receives the papers, and he shall forthwith after receiving the papers notify the parties or their agents by registered mail of the date, hour and place of the sittings, and the clerk issuing the summons shall certify in detail to the court to which the action is transferred all the costs incurred up to the date of the transfer.

O. Reg. 470/80, r. 10.

11.—(1) In an action within the jurisdiction of the court where the amount claimed exceeds $1,000 exclusive of interest, if it appears that the action should not have been entered in the Municipality of Metropolitan Toronto by reason of section 64 of *The Small Claims Courts Act,* the action shall not fail for want of jurisdiction.

(2) A judge of the court may order that any such action be transferred to an appropriate county court, upon such terms as to the payment of costs or otherwise as the judge sees fit and thereafter such action shall proceed in the county court as if originally commenced therein and as if the defendant had entered an appearance.

(3) Section 70 of *The Small Claims Courts Act* does not apply to an action to which this rule applies. O. Reg. 470/80, r. 11.

12. If it appears to a judge of the Supreme Court, or a judge of a county court, that an action is one which ought to be tried in the Supreme Court or a county court, he may order that it be transferred to the Supreme Court or to a county court, as the case may be,

(2) If a judge does not make an order as to costs, they abide the event of the action.

(3) Where the plaintiff does not appear or does not prove his claim, the judge may award to the defendant a sum for his trouble and attendance not exceeding what he would be entitled to if a witness on his own behalf, to be recovered by execution.

(4) Where the plaintiff fails to recover judgment by reason of the court not having jurisdiction, the judge nevertheless has the power conferred by subsection 1, and the recovery of the costs awarded may be enforced by the same remedies by which costs of proceedings within the proper competence of the court are recoverable.

105. Where the defendant having disputed the plaintiff's claim, afterwards and before the opening of the court, confesses judgment or pays the claim so short a time before the sittings of the court that the plaintiff cannot in the ordinary way be notifed thereof, and without such notice the plaintiff in good faith and reasonably incurs expenses in procuring witnesses or in attending at court, the judge may order the defendant to pay such costs or such portion thereof as to him seem just. O. Reg. 470/80, r. 51.

(3) The following written statements and documents shall be received in evidence as provided in subrule 1:

(5) Nothing in this rule,

(*a*) renders admissible any evidence of the type described in subsections 2 and 3 of section 96*a* of *The Small Claims Courts Act*; or

(*b*) restricts the power of the judge to admit into evidence any writing or document pursuant to section 96*a* of *The Small Claims Courts Act*. O. Reg. 470/80, r. 53.

107. An appeal does not lie if, before the commencement of the trial, there is filed with the clerk an agreement in writing not to appeal, signed by the parties or their agents, and the judge shall note in his minutes whether or not the agreement was so filed, and the minutes are conclusive evidence upon that point.

108. Subject to section 107, an appeal lies to the Supreme Court from the decision of the judge at or after the trial or upon an application for a new trial, except in cases where a new trial has been granted,

(*c*) where the parties consent to an appeal; or

(*d*) where the effect of the decision is to determine that a general assessment made by a mutual insurance company is invalid, but the company, unless the Supreme Court otherwise directs, shall pay the respondent's costs of the appeal between solicitor and client on the county court scale in any event.

109. Where a claim and counterclaim arise out of the same transaction or occurrence and an appeal is brought from the judgment upon either, the judgment upon both is subject to review by the court.

. . . . . .

111. The clerk shall, at the request of the appellant or his agent, certify under his hand to the Registrar of the Supreme Court at Toronto, the Claim, with all notices endorsed thereon, and the Defence, the evidence and all objections and exceptions thereto, and all motions or orders made, granted, or refused therein, together with such notes of the judge's charge as were made, the decision when in writing, or the notes thereof, and all affidavits and other papers in the action, and shall furnish to the parties, when required so to do, copies of the proceedings so certified, or such part thereof as is required, and for every copy he is entitled to receive 5 cents for every 100 words.

112.—(1) The appeal shall be made in the time and manner prescribed by the rules of court and the Chief Justice of the High Court may, after the appeal is perfected and where it appears to him that no issue of general interest is raised and that expedition and the interests of the parties would be thereby best served, order that the appeal be heard by a single judge of the Divisional Court and a decision of the judge shall be deemed to be a decision of the Divisional Court.

(2) After the appeal has been set down to be heard, the execution of the judgment appealed from shall be stayed pending the appeal, unless otherwise ordered by a judge of the Supreme Court.

113. On an appeal to the Supreme Court under this Act, the Supreme Court has the same powers and duties as in an appeal coming before it under *The County Courts Act* and the practice and procedure applicable thereto applies with necessary modifications to appeals under this Act.

. . . . . .

115.—(1) Where the judge before whom an action is tried dies before giving judgment, or having reserved his judgment within six months thereafter, any party

may, upon notice to all other parties, apply to the Chief Judge of the County and District Courts for an order directing that the action be reheard by such judge as he designates.

(2) An order made under subsection 1 shall name the place where the action is to be reheard, and in making such order the chief judge may give such other directions as he considers fit.

(3) No further evidence shall be received upon such rehearing except by leave of the court.

(4) No proceedings in the action shall thereafter be taken without the order of the chief judge after notice.

(5) Upon such rehearing, the evidence, exhibits, and papers used at the trial shall be read, and after argument by counsel the presiding judge shall deal with the action as on an original trial and shall direct that judgment be entered by the court clerk in accordance with his findings.

(6) The costs of the rehearing shall be fixed by the judge presiding at the rehearing, who shall also direct by whom they are to be paid.

(7) An appeal lies from such judgment or finding in the same manner and on the same terms as if the judgment had been pronounced at the trial. O. Reg. 470/80, r. 57.

58.—(1) The costs of an appeal are in the discretion of the appellate court and, on any appeal, the court may allow the same counsel fee as could a trial judge in an action for more than $1,000 pursuant to the Tariff of Costs.

(2) Where the appellate court in dismissing an appeal is satisfied that there was no merit in the appeal and that it should not have been brought, it may fix costs against the appellant at up to $500 plus disbursements. O. Reg. 470/80, r. 58.

AMENDMENT OF PLEADINGS, ADDITION OF PARTIES, ETC.

59. A judge may at any stage of an action grant leave to amend any pleading or document, or to add, delete or substitute any party, and such leave shall be granted, on such terms as seem just, unless prejudice will result which cannot be compensated by terms. O. Reg. 470/80, r. 59.

60.—(1) No person shall be added or substituted as a plaintiff or as a next friend, unless his consent in writing thereto is filed.

(2) A person added as a defendant or garnishee shall be served with a copy of the claim as amended but, where such a party is added at trial, the judge may dispense with the service of the copy of the claim if the party or his agent consents thereto. O. Reg. 470/80, r. 60.

61. The court may strike out or amend any pleading or anything in any pleading on the ground that,

(*a*) it discloses no reasonable cause of action or defence, as the case may be; or

(*b*) it is scandalous, frivolous or vexatious; or

(*c*) it may prejudice, embarrass or delay the fair trial of the action; or

(*d*) it is otherwise an abuse of the process of the court,

and may order the action to be stayed or dismissed or judgment entered accordingly or impose terms as it thinks fit, as the case may be. O. Reg. 470/80, r. 61.

TRANSFER OF ACTIONS FROM COUNTY COURT

62.—(1) Where an action that is within the jurisdiction of the court was commenced in the county court or in the Supreme Court before section 3 of the Act came into force, and no evidence has been heard in the action, a party may, upon payment of the prescribed fee, transfer the action to the court by filing with the clerk a Request for Transfer of Action in Form 16, together with the written consent of all parties to the action and a copy of all pleadings in the county court or Supreme Court action.

(2) A Request for Transfer of Action in Form 16 may be filed by any party to the action and shall be filed with the clerk in the local division in which a claim could have been filed if the proceeding had been originally commenced in the Provincial Court.

(3) Where a Request for a Transfer of Action has been filed with the clerk, the action shall be transferred to the court and it shall proceed, subject to any direction by the judge, as though all pleadings required by these rules had been filed. O. Reg. 470/80, r. 62.

(*a*) that is not conducted by a ministry or by the Commission; and

1. The civil servant or public servant shall submit regular personal attendance reports.

2. The civil servant or public servant shall not accept a bursary or scholarship in respect of the program.

1. No interest may be charged on the award, unless repayment is required under paragraph 3.

2. Repayment of the award shall not be required if the civil servant returns to work in the civil service on or before the expiry of the leave of absence and works as a civil servant for a period of time equal to that percentage of a year calculated by multiplying by two the percentage of the civil servant's annual salary that is equal to the amount of the award.

3. If the civil servant does not work for the period of time referred to in paragraph 2, the award shall become due and repayable on the day he ceases to be a civil servant, but the principal amount repayable shall be reduced in proportion to the period of time that he worked in the civil service after the expiry of the leave of absence.

pation of the civil servant in the program. O. Reg. 484/80, s. 1, *part*.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 485/80.
Exemption—Ministry of Transportation and Communications—MTC-29.
Made—March 12th, 1980.
Filed—June 9th, 1980.

ORDER MADE UNDER
THE ENVIRONMENTAL ASSESSMENT
ACT, 1975

EXEMPTION—MINISTRY OF
TRANSPORTATION AND
COMMUNICATIONS—MTC-29

Having received a request from the Minister of Transportation and Communications that an undertaking, namely;

> The activity of carrying out construction and maintenance of commuter parking lots adjacent to major highways under the Ministry of Transportation and Communications' Capital Construction Program,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by the undue delay and expense required to prepare environmental assessments for projects that are of a minor nature and tend to have little or no detrimental effects on the environment.

2. The public will be interfered with and damaged by undue delay in the carrying out of the projects which are for the convenience of users of the existing Provincial roads system, and contribute to the provincial energy conservation program.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is unlikely to have any significant adverse effects on the environment, and therefore, the interference with the Ministry of Transportation and Communications' program as described which would be caused by the application of the Act would be undue.

2. The undertaking is for the convenience of users of the existing Provincial roads system, and contributes to the Provincial energy conservation program.

3. The protection, conservation and wise management of the environment will be sufficiently provided for by the environmental screening process already followed by the Ministry of Transportation and Communications, as part of its policy.

This exemption is subject to the following terms and conditions:

1. This exemption is restricted to property acquisition, construction and maintenance of a parking area only, and does not include the future establishment of a bus terminal at a parking lot established pursuant to this exemption.

2. Property acquisition carried out for the commuter parking lot activity shall take place only upon a "willing seller-willing buyer" basis.

This order comes into force and has effect on and after the date upon which it is approved by the Lieutenant Governor-in-Council. O. Reg. 485/80.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 486/80.
Exemption—Ministry of Natural Resources—MNR-27.
Made—May 7th, 1980.
Filed—June 9th, 1980.

ORDER MADE UNDER
THE ENVIRONMENTAL ASSESSMENT
ACT, 1975

EXEMPTION—MINISTRY OF NATURAL
RESOURCES—MNR-27

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The completion of the implementation of the Tiny Marsh Provincial Wildlife Area Master Plan,

be exempt from the application of the Act pursuant to Section 30; and

Having been advised that a master plan has been prepared for the area that embodies the spirit of the Act by the protection and enhancement of the environment of Ontario in the following ways:

(*a*) the master plan provides for wildlife-oriented day use recreation and will increase awareness of wildlife and its management;

(*b*) the master plan allows for the commercial continued use of the area's natural resources by aggregate extraction, trapping, hunting and fishing where compatible with other uses; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

1. The Crown will be interfered with by the delay and cost involved in preparing an environmental assessment on a master plan which completes the planning for the implementation of activities commenced in 1966 the development of which is almost completed.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is further exempt from the application of the Act for the following reasons:

1. The undertaking has now reached such an advanced stage that the benefits of requiring an environmental assessment at this time are unlikely to outweigh the costs and would therefore not be in the public interest.

2. The development remaining to be done in the wildlife area is not anticipated to be significantly different from what has been implemented to this time.

3. The development of the master plan represents an ongoing long-term process of planning, public participation and financial commitment which was commenced in 1966.

4. The master plan is closely related to the ongoing development of the Township of Tiny and Flos as reflected in their official plans which stress and designate agricultural, forestry and recreational purposes in the land use.

5. The Tiny Marsh Wildlife Area is a major recreational attraction providing for such activities as duck hunting, marsh wildlife viewing, fishing and nature interpretation and the master plan is consistent with these.

This exemption is subject to the following terms and conditions:

1. As soon as final printing of the master plan is completed, a copy of the plan and other documentation with respect to the undertaking, shall be made available to the public at the district office of the Ministry of Natural Resources closest to the wildlife area, and a copy sent to the Environmental Approvals Branch of the Ministry of the Environment, to be kept with records of environmental assessment and made available to the public in the same manner as such records.

2. Where the carrying out of the undertaking requires that some activity, for which an environmental assessment has been done and an approval to proceed received or an exemption granted, be concluded, that activity is not exempt under this order but shall be carried out in accordance with the environmental assessment and approval to proceed, or the conditions of exemption whichever is applicable.

3. This exemption will not apply to activities which are not provided for in the master plan.
